YEAR 4 PROGRAMME

Programme Overview - Year 4

Year 4's focus is on interactive songwriting practice with an emphasis on strengthening prolificacy plus flexibility. It runs on a two month cycle (give or take!). During each block, you write a song stimulated by a generic prompt I'll forward. Throughout the year, you'll also work on a collaboration with me. You choose that prompt! Online workshops will be held monthly to troubleshoot and feedback on material. After each class, you'll receive an email with further resources or reminders from previous material that can support or offer insight. You can also touch base at any time with me directly.
